Page Turn Mode

Auto Scroll Mode

Perform - Overview

Welcome to Perform for iPad. Below is a quick overview of the Perform sheet music reader section. Perform will allow you to practice and perform your music in new and exciting ways!

Page Turn Mode

"Page Turn" mode mimics the traditional action of physically turning a page of sheet music on a music stand.

You can turn pages in Perform by swiping across the paper from left to right or by tapping the left or right side of the paper.

Auto Scroll Mode

Unique to Perform is "Auto Scroll", a new and exciting way to play music that was designed specifically for use on the iPad.

With "Auto Scroll" you can perform entire concerts without ever taking your hands off of your instrument!

Note: Perform sheet music reader only works in Portrait Mode.

Perform

Symphony No. 5 - Opus 67 (1st Movement)

Ludwig van Beethoven
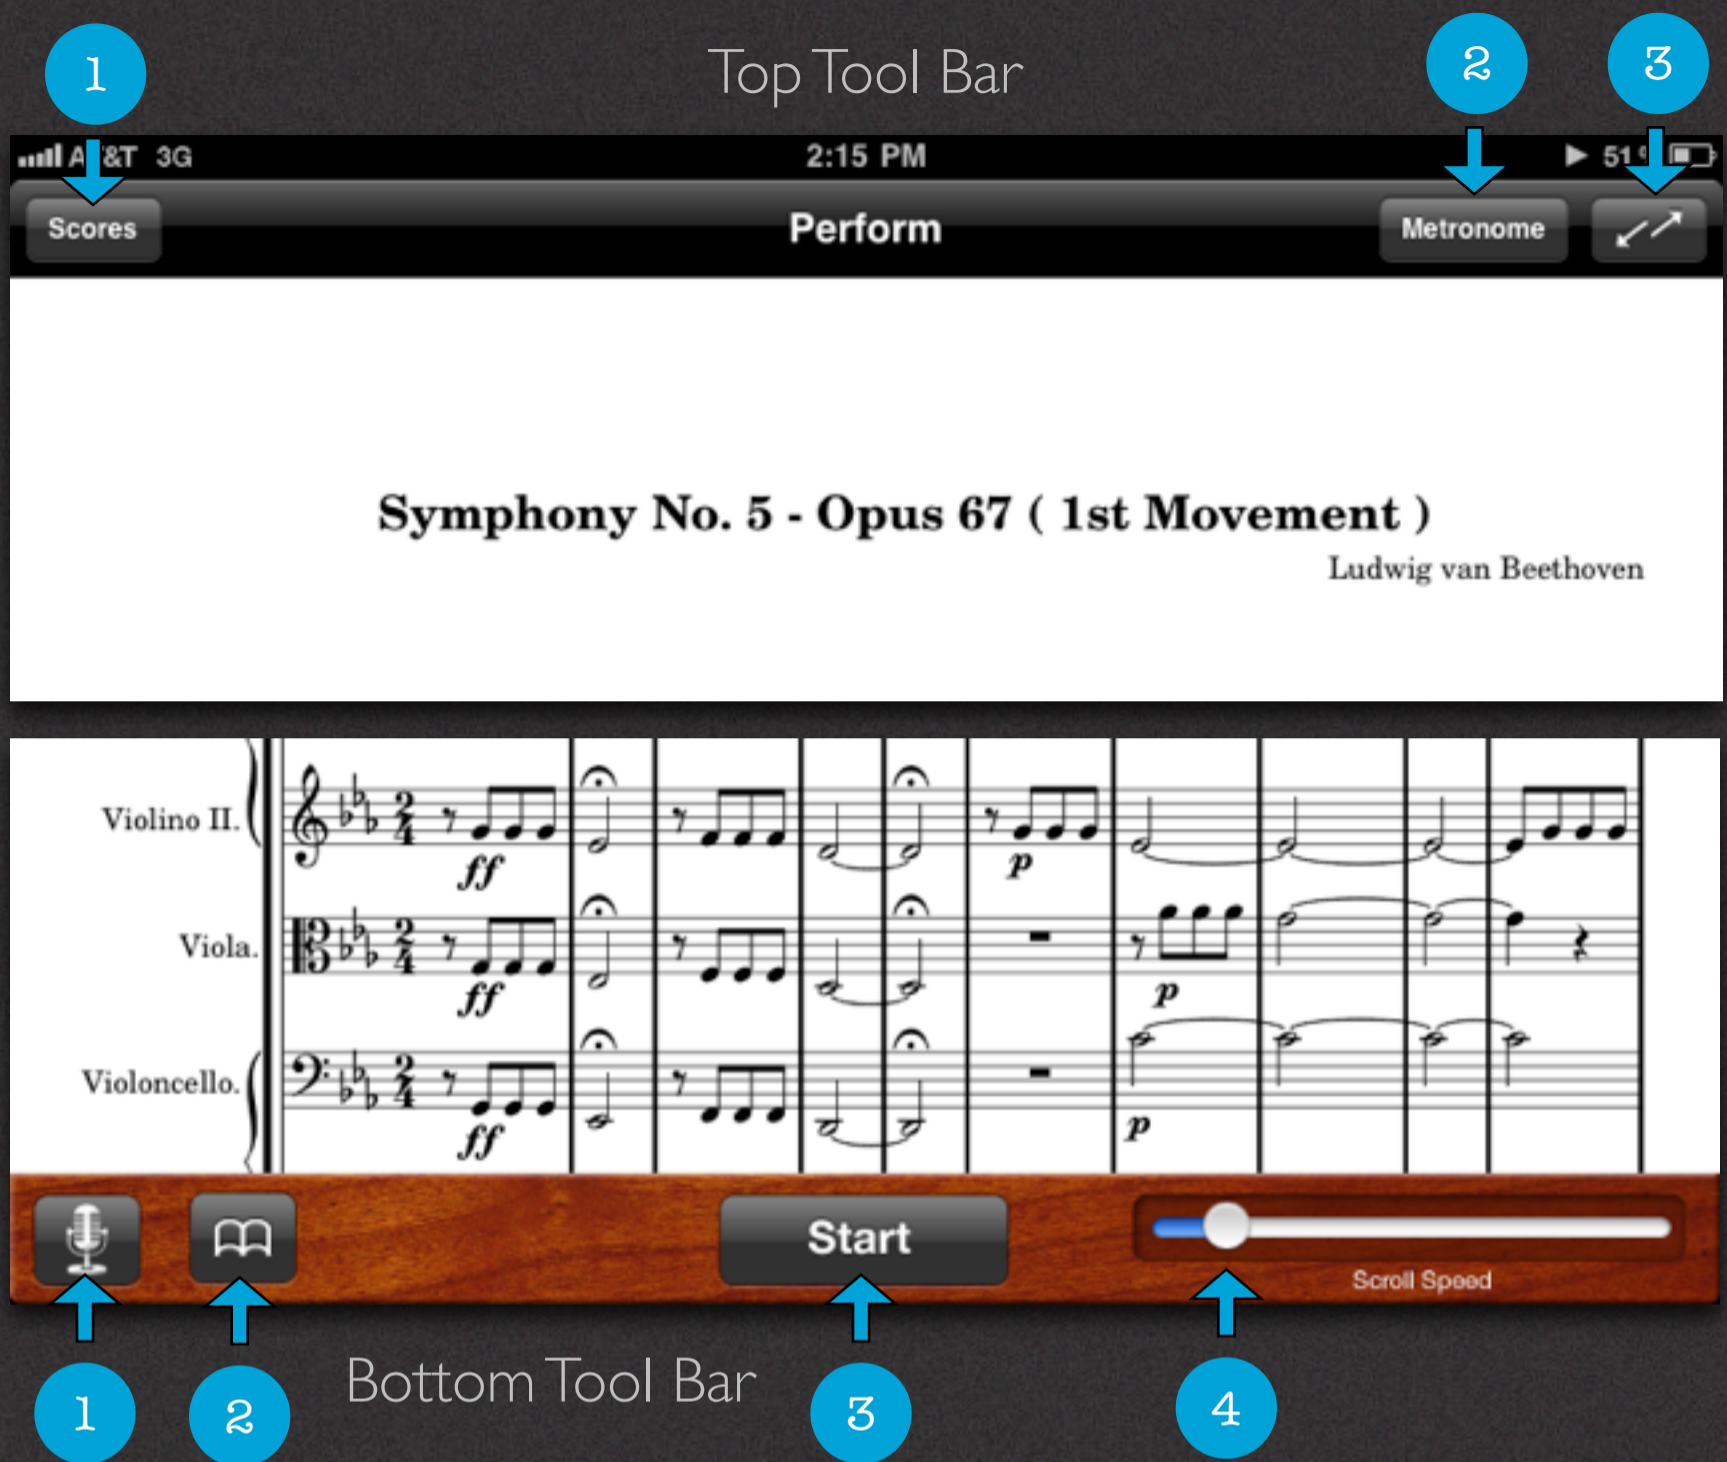

Bottom Tool Bar

Perform Tool Bars - Overview

Top Tool Bar Controls

1. Scores - opens the Score Manager.

2. Metronome - opens the Metronome panel.

3. Full Screen* - hides the top and bottom Tool Bars.

Bottom Tool Bar Controls

1. Recorder* - opens the Audio Recorder panel.

2. Mode - opens scores in "Page Turn" or "Auto Scroll" mode.

3. Start/Stop - starts and stops various functions like the metronome, the recorder, and the scrolling feature.

4. Scroll Speed - for use in "Auto Scroll" mode.

* These features are not available in the Free version of Perform. You must upgrade to the paid version to enable them.

# Playing A Score

Loading a Score in Perform

Perform will allow you to practice and perform your music in new and exciting ways. There are 2 modes for reading scores in Perform. "Page Turn Mode" and "Auto Scroll Mode".

To load a Score in Perform do the following:

1. Tap on a score from the "Score Management" screen to preview it.

2. Tap the "Play Song" button on the top right corner.

3. Select either "Page Turn Mode" or "Auto Scroll Mode" by tapping the desired option.
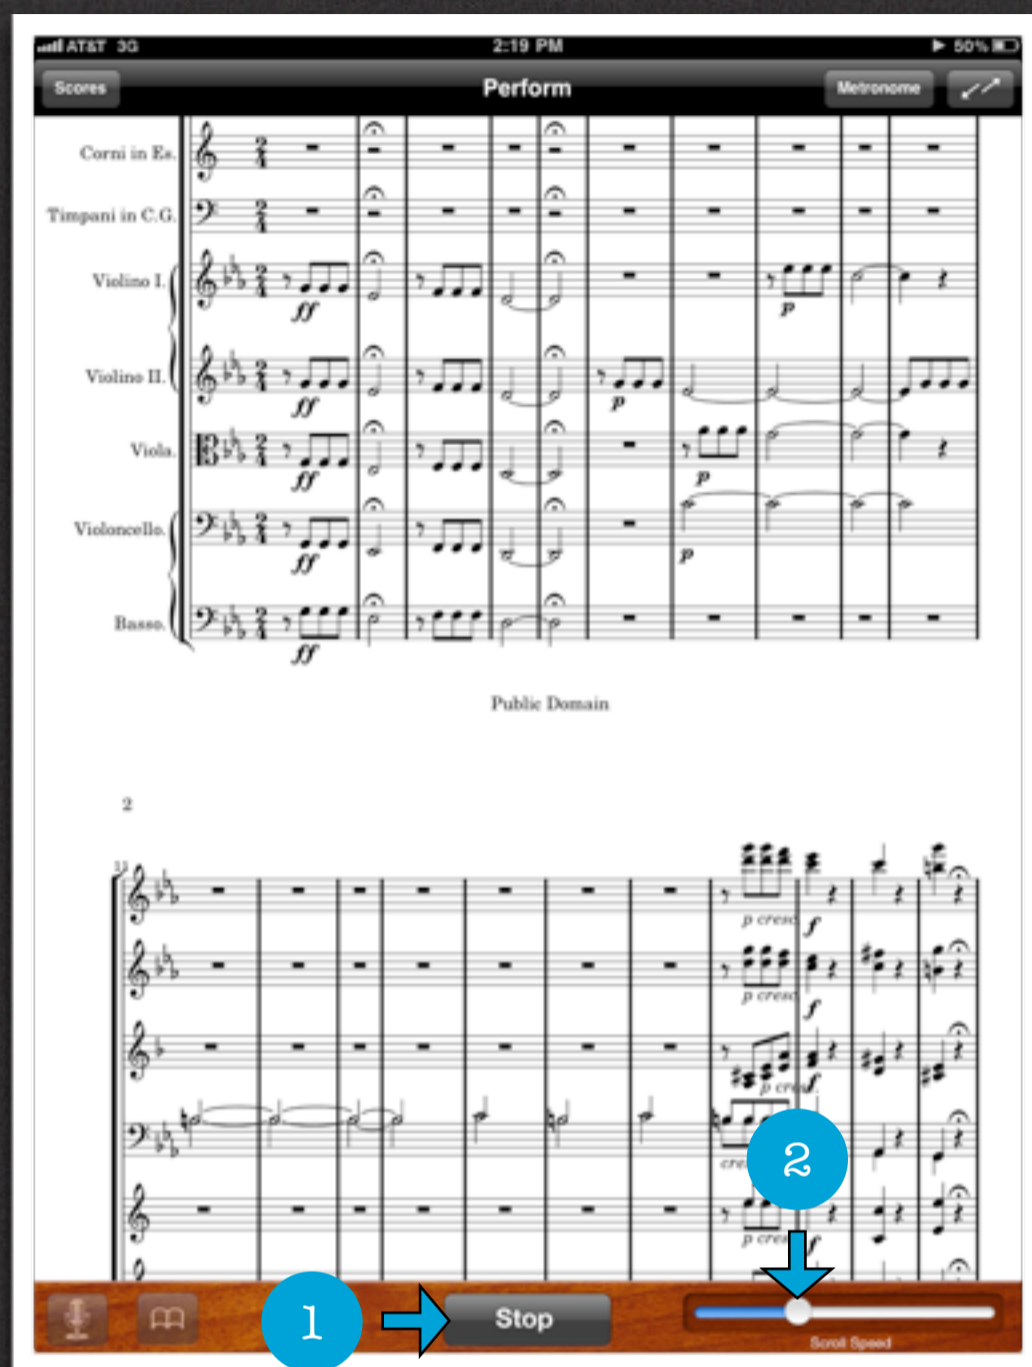

Perform
Page Turn Mode

Turning Pages

"Page Turn" mode mimics the traditional action of physically turning a page of sheet music on a music stand.

You can turn pages in Perform with one of the following two gestures:

1. Swipe across the paper from left to right or from right to left to page forward or backward.

2. Tap the far most right or left edges of the paper to page forward or backward.

6

Perform

# Auto Scroll Mode

Scrolling and Adjusting Speed

Unique to Perform is "Auto Scroll", a new and exciting way for musicians to play music. With "Auto Scroll" you can perform entire scores or concerts without ever taking your hands off of your instrument.

To scroll sheets in Perform do the following:

1. Tap "Start" to start scrolling the music from the beginning of the score.
   Tap "Stop" to stop scrolling the music and reset the score to the beginning.

2. Slide the white button on the "Scroll Speed" controller until you've reached the desired speed.
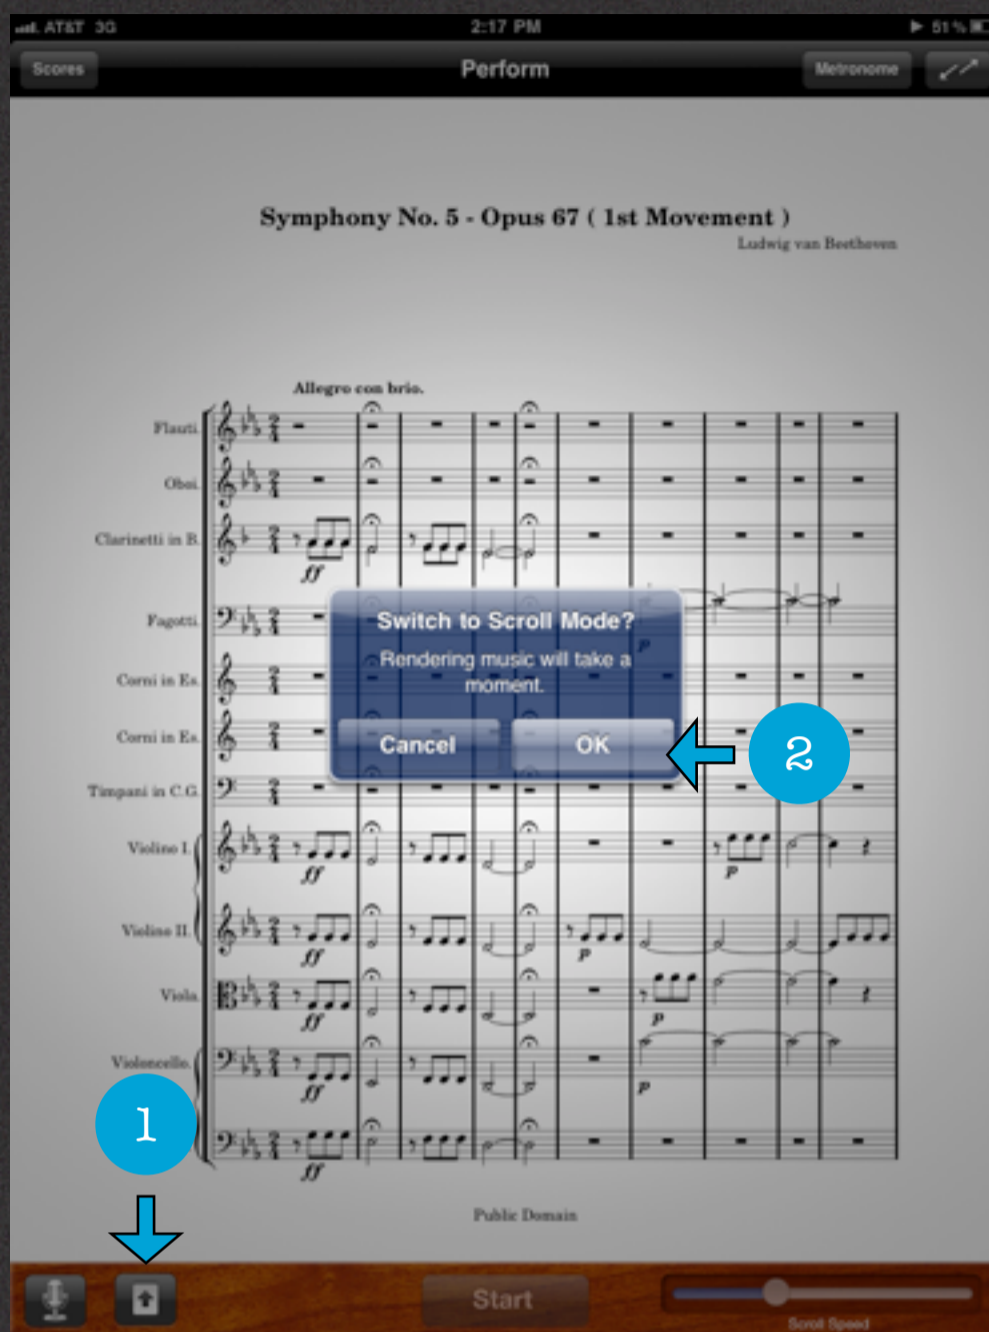

Perform

Auto Scroll Mode

Pausing, Resuming and Manually Scrolling Sheets

1. While scrolling you can Tap anywhere on the music to pause or resume scrolling. Doing this will keep your position in the score.

2. While scrolling you can Tap the music to pause it, then slide the score up or down to a desired position. Tap anywhere on the music to resume scrolling.

Perform

Switching Modes

Switching From "Page Turn" to "Auto Scroll"

At anytime you can switch from "Page Turn" to "Auto Scroll" mode without going back to the Score Manager.
To switch modes do the following:

1. Tap the "Auto Scroll" button.

2. Tap "Ok" to switch to scroll mode.

Note: Rendering music will take a moment. The time it takes to render it from one mode to another will depend on how large the score is and how many scores are loaded.

Playing a Set List

Loading a "Set List" in Perform

Perform will allow you to organize multiple scores into "Set Lists" or folders and then play the set. Like individual scores "Set Lists" can be played in both "Page Turn Mode" and "Auto Scroll Mode".
To load a "Set List" in Perform do the following:

1. Tap on a "Set List" from the "Score Management" screen to select it.
2. Tap the "Play Set" button on the top right corner.
3. Select either "Page Turn Mode" or "Auto Scroll Mode" by tapping the desired option.

Note: Both modes will be discussed in detail in "Part II: Perform" of the User Guide

Perform

Playing a Set List In Page Turn Mode

Playing Multiple Scores in Page Turn Mode

Playing multiple scores in "Page Turn" mode works exactly the same as it does for playing a single score with the exception that when you reach the end of the first score, the next score will be revealed.
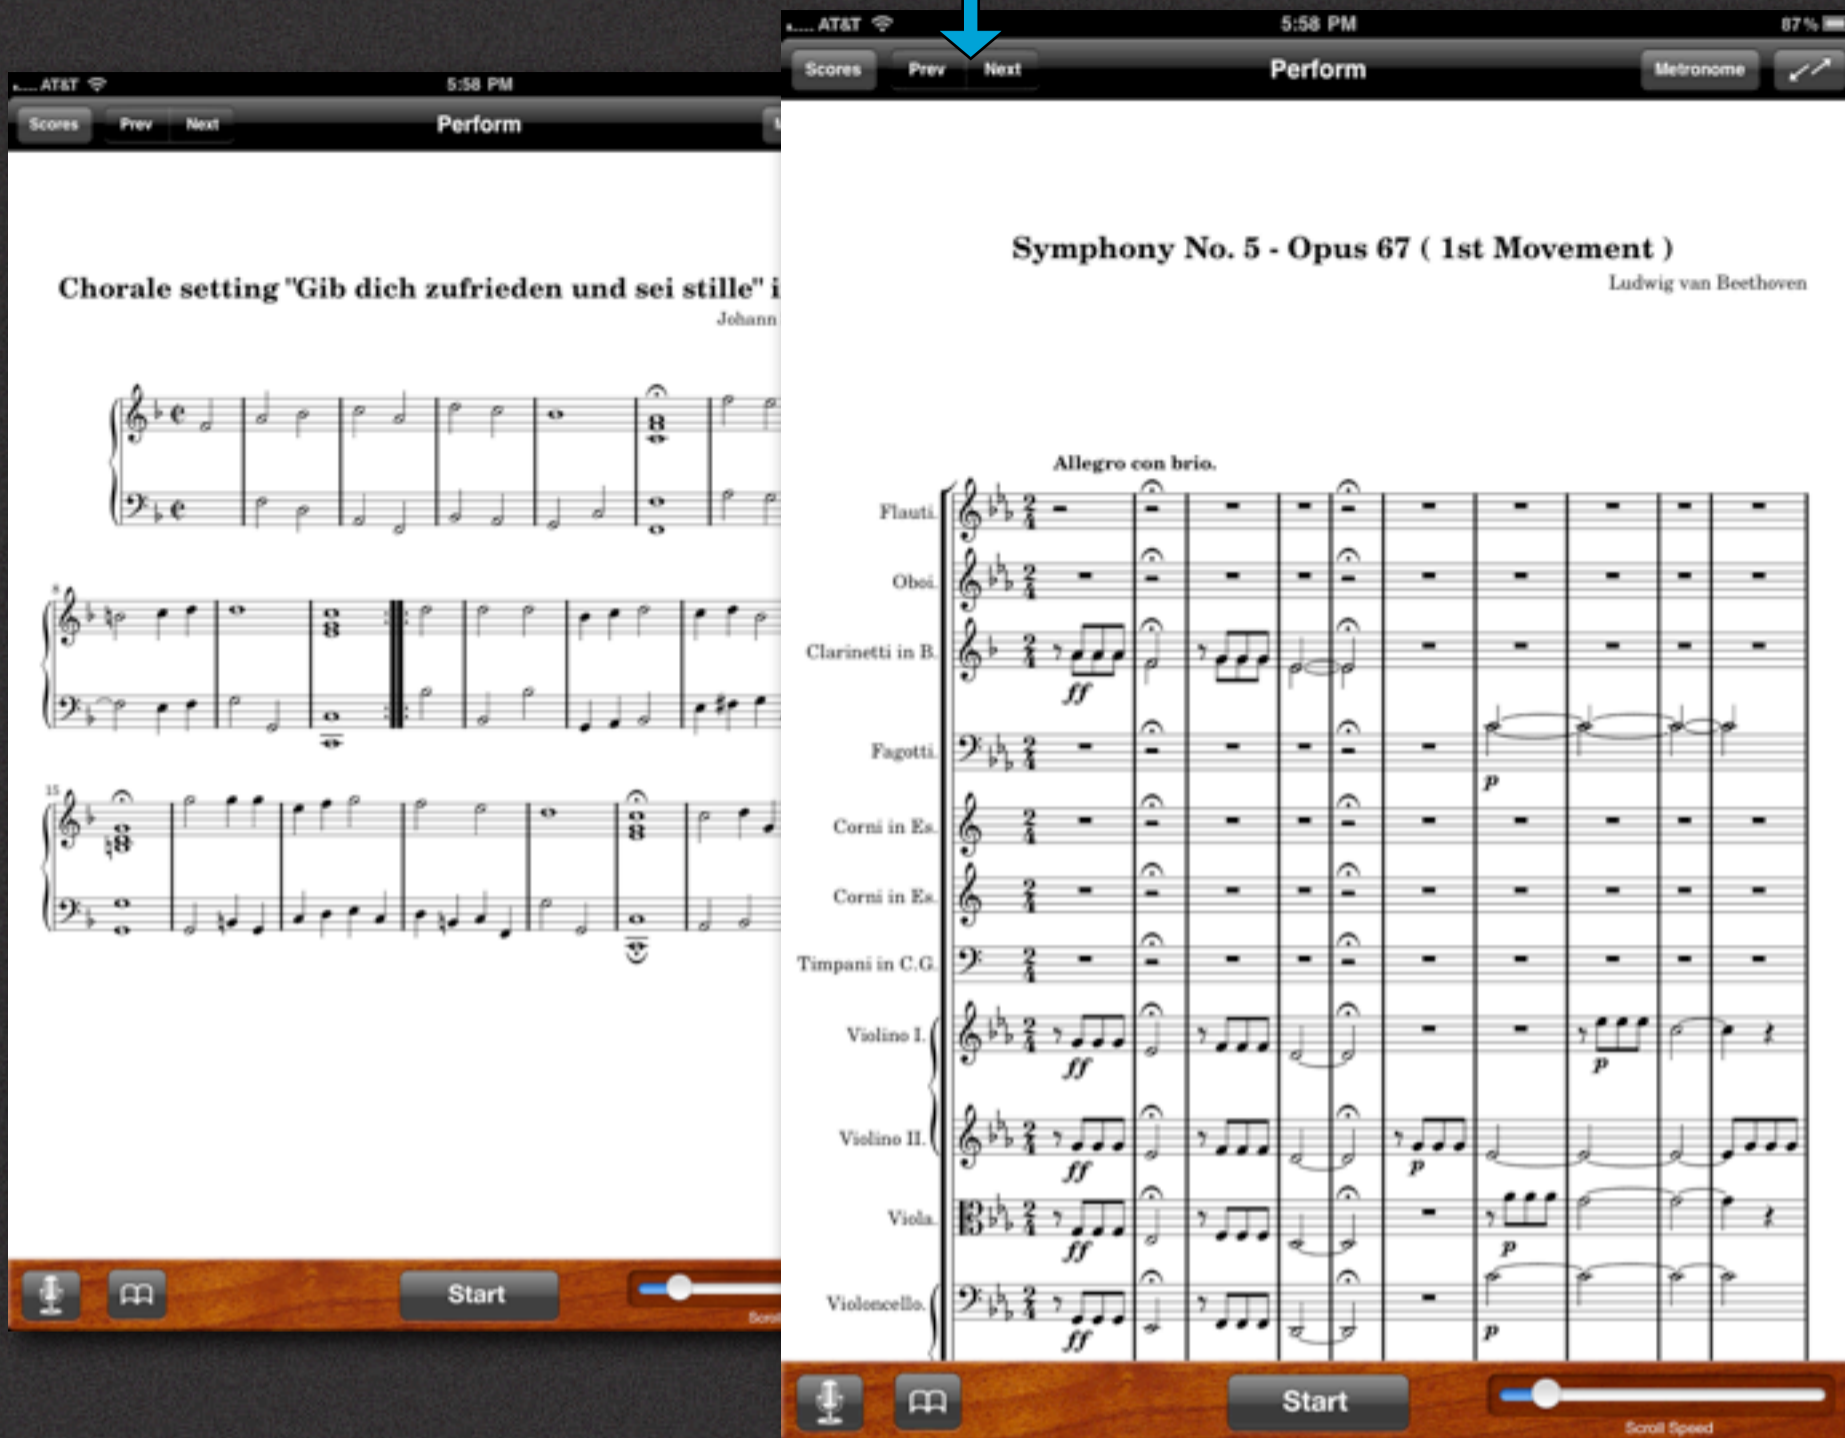

To switch modes do the following:

1. Page through the first score by swiping from right to left until you reach the next score

2. The next score will be available after you turn past the last page of the previous score

Perform

Playing a Set List In Auto Scroll Mode

Playing Multiple Scores in Auto Scroll Mode

There are two new buttons added to the top Tool Bar when playing multiple scores in "Auto Scroll" mode. The "Prev" and the "Next" buttons. Otherwise, playing multiple scores in "Auto Scroll" mode works exactly the same as it does for playing a single score.
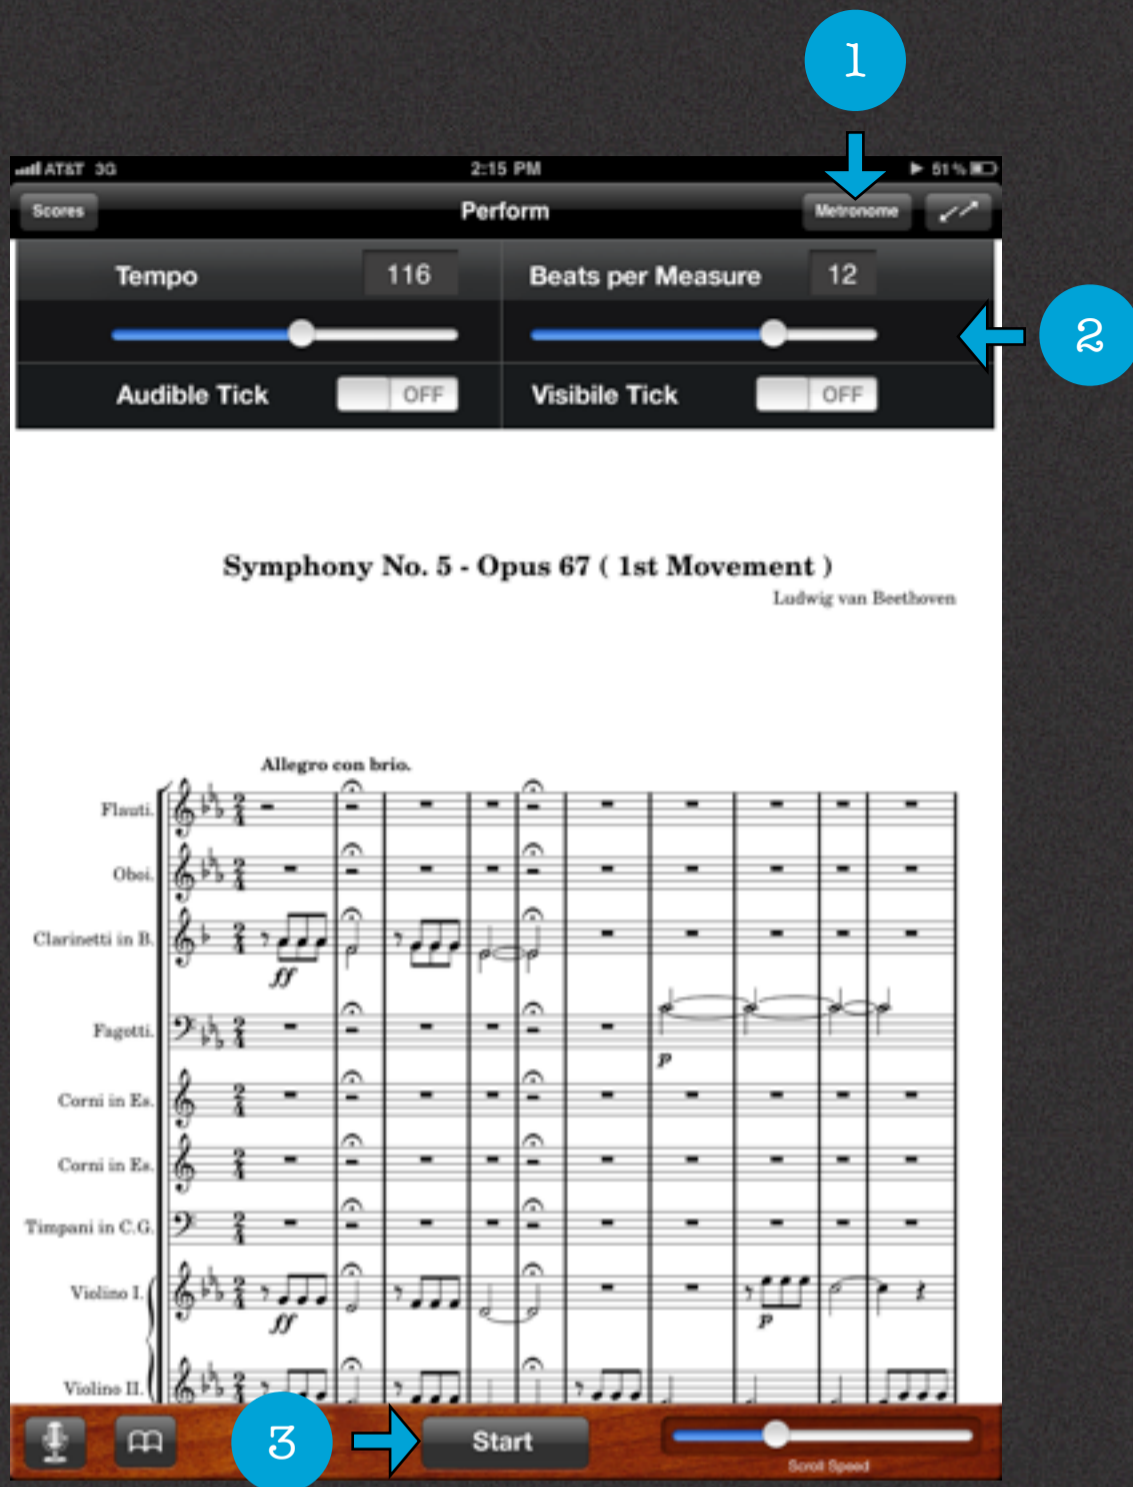

To page through multiple scores do the following:

1. Page through multiple scores of the "Set List" by using the "Prev" and "Next" button on the top right Tool Bar

Note: After a score has scrolled to the bottom of the last page Perform will pause for 5 seconds, then it will load the next score in a paused state. Simply tap the newly loaded score to resume scrolling.
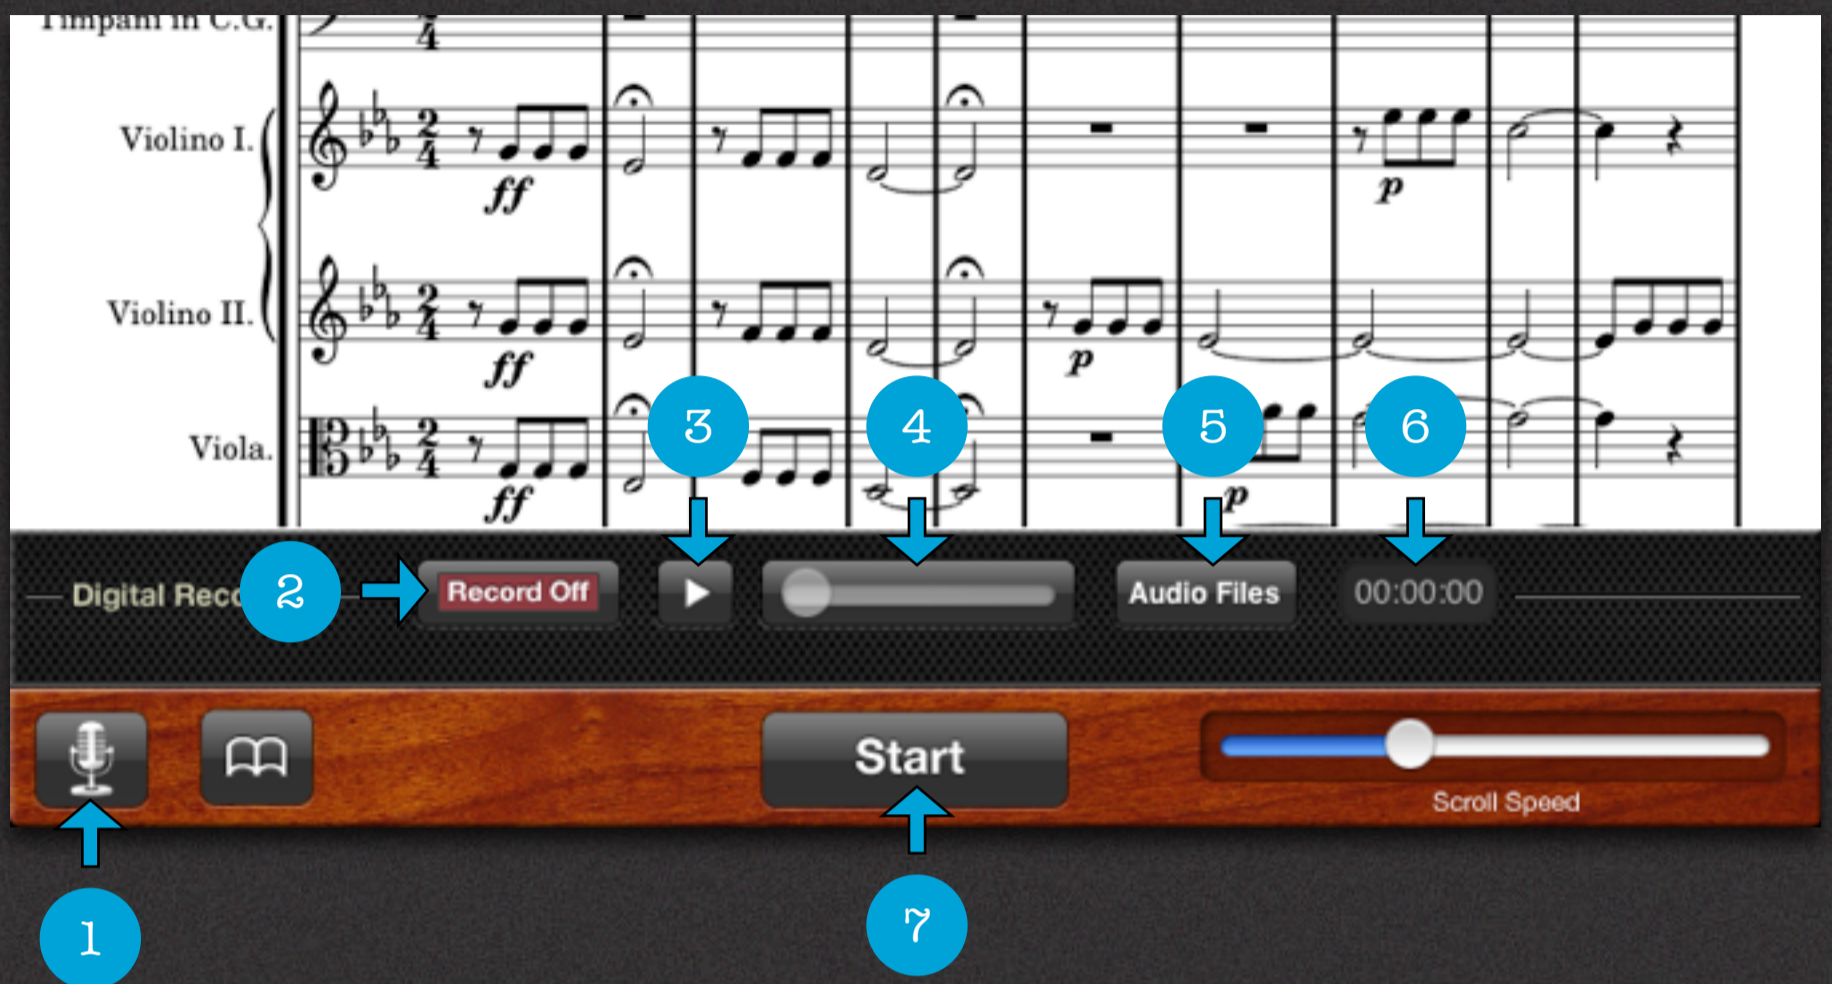

13

Perform

Metronome

Using the Metronome

The Metronome can be used in both "Page Turn" and "Auto Scroll" modes. You can set the Tempo and BPM using the slider controls. Using the Metronome requires that the "Audible Tick", "Visual Tick" or both be set to on. To use the Metronome do the following:

1. Tap the "Metronome" button to show or hide the panel.

2. Adjust the Tempo and BPM to the desired level using the sliders.
   Tap the "Audible Tick" or "Visible Tick" on/off button to ready the metronome.

3. Tap the "Start" button to use the Metronome.

Note: If the "Audible Tick" or "Visible Tick" is set on the Metronome will work even when the panel is hidden.

Perform

Recording

Using the Audio Recorder

The Audio Recorder can be used to capture your performances live or during practice sessions. It can record multiple takes allowing you to play them back for comparison to improve your craft. The recorded audio can also be exported or transferred to your Mac or PC.

Here are the different components of the Audio Recorder:

1. Microphone - shows and hides the Audio Recorder panel.
2. Record Off/On - arms the recorder.
3. Play - plays back recordings.
4. Play Head - allows you to move forward or backward to a desired position within the recording.
5. Audio Files - allows you to select a recording for playback.
6. Timer - shows duration of recording in minutes, seconds and milliseconds.
7. Start/Stop - starts and stops a recording session.

Perform

3 Steps to Record
Recording

Recording

Note: The Audio Recorder is not available in the Free version of Perform.

How To Record A Session

To record a session do the following:

1. Tap the "Microphone" button to open the Audio Panel.
2. Tap the "Record Off" button to arm it in the "Ready" state.
3. Tap the "Start" button to record your performance.
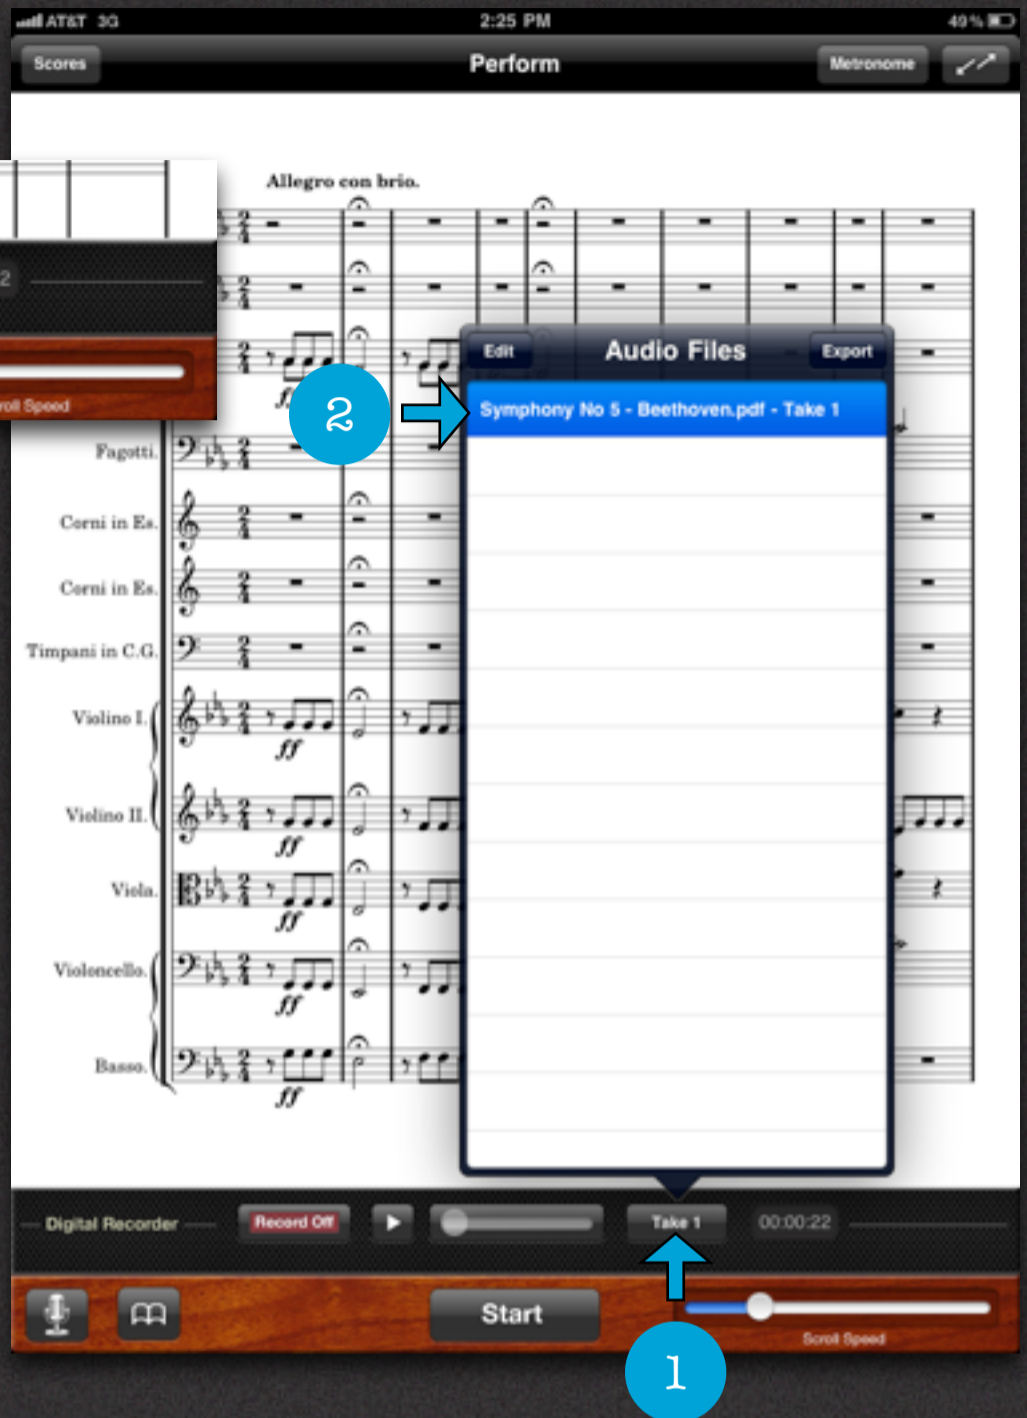

As you start recording you'll notice the following:

• The "Record Off" button will change to "Ready" and then to "Recording" after you tap Start.
• The "Audio Files" label will change to "Take 1" after you tap Start.
• The "Timer" will start counting.

Note: When Perform is recording the "Microphone" and "Page Mode" buttons will be deactivated.

16

Perform

Playback a Recording

Selecting a Recording

Playback a Recording

How To Playback A Recording

To record a session do the following:

1. Tap the "Play" button to play the last file recorded.

How To Select Recordings

1. Tap the "Audio Files" button.
2. Tap the desired audio file to load into the player.

Note: The Audio Recorder is not available in the Free version of Perform.
